PROJECTS

Real Estate agent's Website   VISIT WEBSITE

For my latest project, I crafted a bespoke real estate website that blends modern design with intuitive navigation, making property browsing an effortless experience for clients

My Own Website   VISIT WEBSITE

I've crafted my own portfolio website to present my work, offering a glimpse into the skills and expertise I bring to every project I undertake.

Age Calculator Application

I'I built an Age Calculator app using Kotlin during college, with a strong emphasis on UI/UX design for seamless user interaction. It was available on the Play Store at the time, marking an important milestone in my app development journey
